Analytical Biochemistry

journal homepage: www.elsevier.com/locate/yabio

Analytical Biochemistry, Methods in the Biological Sciences, emphasizes methods in the biological and biochemical sciences. The journal publishes the results of original research as well as reviews of methods.

Publishing methods in analytical techniques; membranes and membrane proteins; molecular genetics: cloning, sequencing, and mutagenesis; novel methods of protein purification; immunological techniques applicable to biochemistry; immunoassays that introduce a unique approach; cell biology; general cell and organ culture; pharmacological and toxicological research techniques.

Analytical Biochemistry includes two additional major sections:

- Reviews: Review articles on methods for biological and biochemical sciences
- Notes and Tips: Methods that can be summarized in a shorter format allowing more rapid publication, including helpful "kitchen tricks".
