

NEW UNIVERSAL LABORATORY POSITIONER

TROEMNER

FROM A GREAT NAME in precision balances and weights, a new versatile piece of equipment—a heavy, sturdy holder for positioning apparatus at any desired point and in any direction.

Perfect for holding mixers, reagent flasks, beakers, burners, magnets, tubing, lenses, microscopes, lights, etc. in an infinite variety of positions. A wide assortment of clamps available for holding articles of any dimensions and configuration.

9½-pound base and all other parts attractively finished for complete corrosion-resistance. Screw foot in base for extra-fine adjustment of position. Sturdy locking joints permit 360-degree rotation of aluminum holding rods. See your laboratory-supply dealer, or write for complete information and Bulletin U.

ANALYST'S CALENDAR

Jan. 9

Society of Applied Spectroscopy (New York Section). Monthly meeting, Hotel New Yorker, New York. Topic: X-Rays from the Sun. Speaker: Dr. Herbert Friedman, U. S. Naval Research Laboratory. Contact: Paul Lublin, General Telephone and Electronics Laboratories, Bayside 60, N. Y.

Jan. 11
to 12

Conference on Radioisotopes in Industry. Louisiana State University, Baton Rouge, La. Sponsors: LSU and U. S. Atomic Energy Commission. Contact: H. D. Richardson, Nuclear Science Center, Louisiana State University, Baton Rouge 3, La.

Jan. 22

Metropolitan Regional Meeting, Hotel New Yorker, N. Y. Sponsors: New York and North Jersey Sections (ACS). Contact: L. T. Eby, The Enjay Co., Inc., Elizabeth, N. J. Page 40 A, Jan.

Jan. 25
to 26

Fourth Delaware Valley Regional Meeting, (ACS). Sheraton Hotel, Philadelphia, Pa. Contact: Philadelphia Section Office, ACS, 212 Harrison Laboratory, 34th and Spruce Sts., Philadelphia 4, Pa. Page 38 A, January.

Jan. 25
to 28

9th Annual Western Spectroscopy Conference. Asilomar, Pacific Grove, Calif. Sponsor: Western Spectroscopy Association. Contact: D. G. Rea, University of California, Berkeley 4, Calif., or J. M. Gordon, Shell Development Co., Emeryville, Calif. Page 52 A, Dec.

Jan. 29
to Feb. 1

15th Annual International Symposium on Modern Methods of Analytical Chemistry. Louisiana State University. Contact: Dr. P. W. West, LSU, Baton Rouge, La. Page 51 A, Dec.

Coming Events

Feb. 5—Symposium on Gas Chromatography. Seaway Hotel, Toronto, Canada. Sponsor: Chemical Institute of Canada (Toronto Section). Contact: S. Sandler University of Toronto, Toronto 5, Canada. Page 42 A, Jan.

Feb. 5 to 9—ASTM Committee Week, Statler Hilton and Sheraton-Dallas Hotels, Dallas, Texas. Contact: American Society for Testing Materials, 1916 Race St., Philadelphia 3, Pa.

Feb. 6—Monthly Meeting, Society for Applied Spectroscopy (New York Section), Statler Hotel, New York, N. Y. Topic: Accessory Equipment for Instrumental Analysis. Speakers: Several. Contact: Paul Lublin, General Telephone and Electronics Laboratories, Bayside 60, N. Y.

Feb. 21—Organic Chemistry Seminar, Northeast Section, ACS, 1200 Beacon Street Motel, Brookline, Mass. Includes paper on gas chromatography by S. Dal Nogare, E. I. du Pont de Nemours & Co., Inc. Contact: Northeast Section, ACS, Department of Chemistry, Tufts University, Medford, Mass.

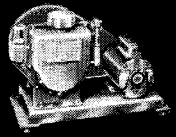

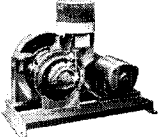

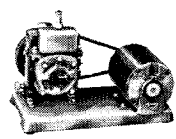

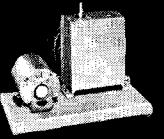

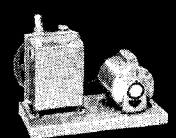

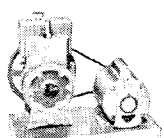

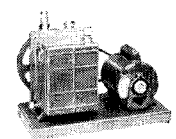

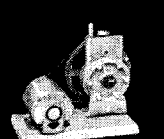

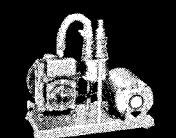

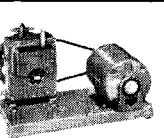

Dr. Neil Gordon, president of the National Society of Applied Spectroscopy (left), presents the journal award for the best paper in the 1960 volume of Applied Spectroscopy to **Dr. E. S. Hodge** of Mellon Institute. The paper "The Spectrochemical Analysis of Solution: A Comparison of Five Techniques" was written by Dr. W. K. Baer and Dr. Hodge of Mellon. The award was made during the recent Eastern Analytical Symposium and Instrument Exhibit held in New York City

- March 2 to 3—Third Conference on Experimental Aspects of NMR Spectroscopy, Mellon Institute, Pittsburgh, Pa. Contact: R. A. Friedel, Bureau of Mines, Pittsburgh, Pa. Page 41 A, Jan.
- March 5 to 9—Thirteenth Pittsburgh Conference on Analytical Chemistry and Applied Spectroscopy, Penn-Sheraton Hotel, Pittsburgh. Sponsors: Analytical Chemistry Group (Pittsburgh Section, ACS) and Spectroscopy Society of Pittsburgh. Contact: Dr. C. F. Glick, Chairman, Applied Research Laboratory, U. S. Steel Corp., Monroeville, Pa. Page 81 A, Sept.
- March 7—Annual General Meeting, Society for Analytical Chemistry, Midland Hotel, Manchester, England. Contact: Society for Analytical Chemistry, 14 Belgrave Sq., London, S.W. 1, England.
- March 20 to 29—American Chemical Society, 141st National Meeting, Washington, D. C. (Analytical Division, March 21-24). Page 43 A, Jan.
- March 27—18th Annual Quality Control Clinic, University of Rochester. Sponsor: Rochester Society for Quality Control. Subject: 20 technical papers covering all phases of quality control and industrial statistics. Contact: W. J. Nielsen, Eastman Kodak Co., Rochester, N. Y.
- March 28 to 31—Third Symposium on Spectroscopy, University of London. Sponsor: Hydrocarbon Research Group. Contact: General Secretary, Institute of Petroleum, 61 New Cavendish St., London, W.1, England. Page 82 A, Sept.
- April 9 to 12—Feigl Anniversary Symposium, Birmingham, England. Contact: M. L. Richardson, John & E. Sturge, Ltd., Lifford Chemical Works, Kings Norton, Birmingham 30, England. Page 59 A, August.
- May 1 to 3—17th Purdue Industrial Waste Conference, Purdue University. Contact: Don E. Bloodgood, Purdue University, Lafayette, Ind.
- June 3 to 8—Tenth Annual Meeting, ASTM Committee E-14 on Mass Spectrometry, New Orleans, La. Contact: Dr. George Crable, Geneva College, Beaver Falls, Pa. Page 43 A, Jan.
- June 4 to 6—1962 Nuclear Congress and Atomic Exposition, New York Coliseum. Sponsor: Engineers Joint Council, Inc. Contact: Atomic Exposition, 117 South 17th St., Philadelphia 3, Pa. Page 49 A, Nov.
- June 11 to 15—Symposium on Molecular Structure and Spectroscopy, Ohio State University. Contact: Prof. R. A. Oetjen, The Ohio State University, Columbus 10, Ohio. Page 46 A, Jan.
- June 13 to 15—Annual Summer Symposium, Division of Analytical Chemistry (ACS) and ANALYTICAL CHEMISTRY, University of Maryland, College Park, Md. Topic: Use of Computers in Analytical Chemistry. Contact: Dr. Lewis Rogers, Vitro Corp., West Orange, N. J.
- June 13 to 16—Fourth International Symposium on Gas Chromatography, Hamburg, Germany. Sponsors: Hydrocarbon Research Group of the Institute of Petroleum and German Chemical Society (Analytical Group). Contact: Dr. W. Fritsche, Gesellschaft Deutschen Chemiker, Postfach 9075, Frankfurt (Main) 9, Germany, Page 45 A, Nov.
- June 18 to 22—International Conference on Spectroscopy, University of Maryland, College Park, Md. Sponsor: Society for Applied Spectroscopy. Contact: B. F. Scribner, National Bureau of Standards, Washington 25, D. C. Page 57 A, Dec.
- June 24 to 29—65th Annual Meeting of ASTM, Statler Hilton Hotel, New York City. Contact: American Society for Testing Materials, 1916 Race St., Philadelphia 3, Pa.

WELCH DUO-SEAL VACUUM PUMPS

are designed to fit almost every application better and at less cost . . . in the laboratory, industry and school. Ten different models to choose from . . . capacities from 21 to 1400 liters per minute . . . ultimate pressures from 2×10^{-2} mm Hg down to 1×10^{-4} mm Hg and better . . . two-stage and single-stage mechanical pumps with vented exhaust, and mechanical and diffusion combination pumps.

Over the years, Welch Duo-Seal Pumps have built a world-wide reputation for best performance, greatest reliability and quietest operation. *When you use a Duo-Seal Pump, you're using the best!*
