PAUSE FOR PATIENT IDENTIFICATION

There's no room for guesswork in a hospital; positive patient identification always comes first. Ident-A-Band by Hollister positively identifies each patient from the time he is admitted until he is discharged. With all vital information right on the patient's wrist, there's no question that this is the right patient. Ident-A-Band protects both the patient and you. Always be sure. Check the Ident-A-Band before doing anything for any patient. *Write for information.*
