

(Contents continued from outside front cover)

Reactor Protection

- Minimum-norm solution of ill-posed neutron detector response using constrained quadratic programming
M.G. Park, Y.S. Choi, C.S. Lee and Y.K. Lee 199

Technical Note

- A new finite cloud method for calculating external exposure dose in a nuclear emergency
X.Y. Wang, Y.S. Ling and Z.Q. Shi 211

- Instructions to Contributors I
