

Sample preparation. Brochure highlights the MilliLab workstation, which performs filtration, solid-phase extraction, evaporation, single and serial dilutions, mixing, gas purging, and addition of standards and reagents. 18 pp. Waters Chromatography Division of Millipore 421

Catalogs

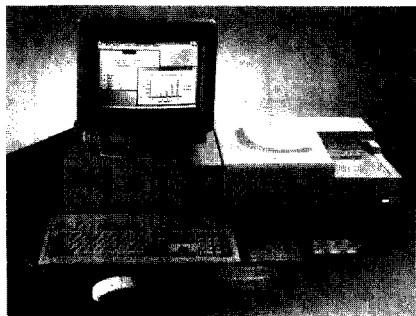

Chemicals. Catalog lists research chemicals, ceramics, pure elements, alloys, analytical standards, catalysts, glassware, platinum labware, and precious metals. 1120 pp. Johnson Matthey/Alfa 425

HPLC. Catalog features fittings and accessories, including biocompatible filters, frits, and check valves. Information on solvent compatibility, material properties, and system applications is provided. Upchurch Scientific 426

Scientific products. Color-coded catalog includes compact laboratory water systems, centrifugal filter devices, blotting membranes and transfer systems, and environmental testing products. 400 pp. Millipore 427

Spectroscopy. Catalog features supplies and accessories for atomic spectroscopy systems, including lamps, burner system components, ICP torch accessories, graphite furnace tubes, sampling supplies, standards, and products for ICP/MS. 60 pp. Perkin-Elmer 428

GC. Catalog features specialty gas chromatography columns and reference standards for environmental applications. EPA 500, 600, and 8000 series methods are discussed. Quadrex 429

CytoFluor fluorescent measurement system is a computer-controlled scanning device for multiwell plates that can be used to quantify both soluble and cell-associated fluorescent signals. Millipore 402

You'd Have To Be Unbalanced
To Pass Up Quality
At This Price!

Save \$1,000 or more on the Shimadzu AEU-210, our 200-gram capacity analytical balance. You'll get a number of features you normally find on \$3,000 balances. Such as automatic recalibration when room temperature changes. And menu-selected weighing parameters. Why's the price so good? Because you'll be buying directly from the manufacturer. Get quality for less. Call us today for more information on our complete line of laboratory balances.
